Dear Jeremy Brittan,

The schedule is perfect ; I confirm that:

- I will be at Professor Gradecak's office at 3.30pm for an informal chat (Room 13-5094 on the MIT campus),
- At 4.00pm I will give a presentation of my work,
- It will be a pleasure to have dinner with members of the lab group.

Thanks for the map of the campus.

Best regards,

Clément Riedel

Dear Clément Riedel,

Greetings from Jeremy Brittan, assistant to Professor Gradecak. I have scheduled a conference room for your presentation which will take place at 4pm on Monday, May 18th, if that is agreeable. Professor Gradecak would also like to meet for an informal chat in her office at 3:30pm if that works for you. After your presentation, there should be a little time for questions and answers, and then an opportunity to have dinner with members of the lab group if you are able.

Please let me know if this works in terms of your schedule. If so, the place to meet with Silvija here on the MIT campus would be in her office, which is Room 13-5094. I've attached a map of the campus to help in terms of navigation, as the building numbering system is a little hard to follow. You'll want to head over to Building 13, located near the center of campus fairly close to Massachusetts Avenue. Once inside, take the elevator up to the fifth floor where Room 13-5094 can be found. The conference room is on the same floor so there won't be too much running around after that. I look forward to meeting you on your visit and if you need anything else beforehand, please don't hesitate to contact me. Have a great weekend!

Best regards,
Jeremy Brittan
Assistant to Professor Silvija Gradecak

Hi Clement,
Thanks for the prompt reply. My assistant Jeremy Brittan (cc-ed) will contact you to arrange the visit.
Regards,
Silvija
